LE CHATELIER FLASK 250ML FLASK (PYCNOMETER)

101-V0038-0030 Glassware

With engraved Scale

High-quality Le Chatelier Flask, a versatile and essential tool for precise measurements in your chemistry experiments. Crafted from durable borosilicate glass, this 250ml pycnometer is designed for accuracy and reliability in determining the specific gravity of liquids.

Product Features:

- **Capacity:** 250ml
- **Material:** High-quality borosilicate glass, known for its superior durability and resistance to thermal shock.
- **Type:** Le Chatelier Flask, also known as a Pycnometer or Specific Gravity Bottle.
- **Purpose:** Ideal for accurately measuring the specific gravity of liquids, a fundamental task in various chemical experiments.

Why Choose This Le Chatelier Flask?

- **Precision and Accuracy:** Ensure reliable measurements with this meticulously crafted pycnometer.
- **Durability:** Made from borosilicate glass, this flask is built to withstand rigorous laboratory conditions.
- **Versatility:** Suitable for a wide range of applications in both educational and professional laboratory settings.

Note: Handle with care. Proper cleaning and maintenance are essential for ensuring the longevity and accuracy of the flask.
