SPECIFIC GRAVITY FRAME

101-V0085

Standard: EN 1097-6, EN 12390-7, BS 1881:114, BS 812, ASTM C127, AASHTO T85

Particle Density

Used for specific gravity determination of concrete, aggregates etc.

To be used with a suitable mechanical and electronic balance fitted with an under-hook facility.

It incorporates on its lower part a platform adjustable in height, holding a water container and allowing the specific gravity test.

The balance is not included and must be ordered separately.

Cradle and baskets are also available.
