

## CABINET TEMP CLIMATE- HORIZONTAL & VERTICAL

101-V0173-H0820RP Series

Product Code	Product Title	External	Internal
101-V0173-H0820RP	820L- TEMP HORIZONTAL REMOVABLE PLUG	1410W x 1870H x 850D	795W x 1370H x 750D

### 101-V0173-H0820RP 820L- TEMP HORIZONTAL REMOVABLE PLUG

Designed to house the loading frame of a 50kN UTM machine in the chamber keeping the motors and electrical equipment in the general lab environment.

The Removable plug allows the UTM to be slid into place from the front of the work bench.

To achieve this the design is based on our Standard Horizontal configuration environmental Chamber (101-V0173-H0820) and raised for the UTM machine

Configured with the compressor on the Left side of the chamber

Designed to be placed on existing laboratory benches 900D.

Includes

For a powder coated base frame, and the removable base plug to suit the UTM Automatic test machine (101-S0060-050)

All Models include

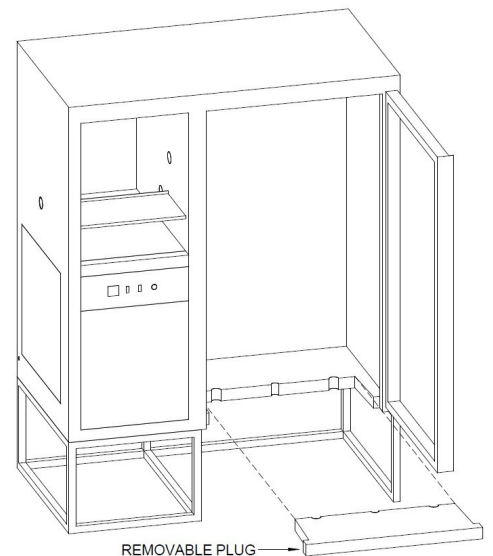

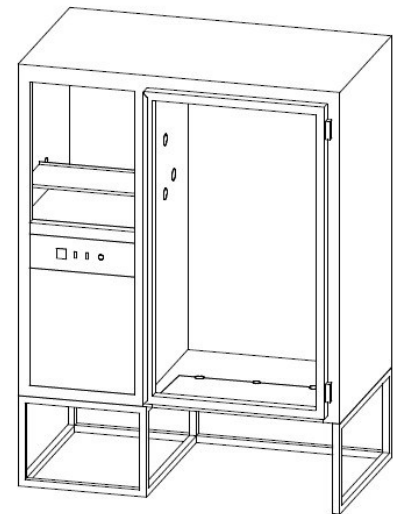

Glass front window

Specification

Temperature range +2C to +60C

Power 240V 50Hz 15A

The removable plug is designed in incorporate the UTM Automatic test machine 101-S0060-050 under the environmental chamber
