

20-1506 Marshall Impact Tester

101,6+152,4 mm dia

GOST PNST 110-2016 - ASTM D5881-09

Universal machine for the preparation of 101,6 and 152,4 mm dia. Marshall specimen. Frame with steel anvil, protection door and rapid mould spanner set. The motorized lifting unit with chaine provides the required drop height. The presetting counter stops the motor after reaching the preselected numbers of drops. By opening the mould spanner the rammer is automatically lifted up enabling easy removal or turning of mould set.

Moulds and accessories

	Base plate	Form Cylinder	Top piece	Filling funnel
Ø 101,6 mm	20-14800	20-1485	20-14820	20-1557
